

# Economic Development and Opportunity

Building a more prosperous Delaware

## Better, more affordable housing opportunities

**366** Units

Constructed or rehabilitated 366 units fully accessible to people with disabilities, a three-fold increase over the previous administration.

**800+** Units Increase in affordable housing stock

**23%** Since 2009, DSHA financing has supported the rehab or creation of almost 23% of the stock in the state.

Administration will have worked on more affordable rental housing than any other administration over the past 30 years

**\$290 Million**

\$14 Million

**Downtown Development program** has leveraged \$14 million into \$290 million in private investment across all 3 counties

Strengthened infrastructure to be safer and more efficient by **reforming and addressing shortfall in Transportation Trust Fund**

**~\$400 Million** additional funding in the next six years to strength roads and bridges

**81%** of contracts awarded to Delaware Firms

**32,000** jobs will be created

Reduced borrowing to bring debt in line with acceptable levels

## Redevelopment of Strategic Sites

Both plans would create jobs, improve water and soil quality by eliminating environmental contamination, provide local recreation and tourism, spur new business and enhance the value of adjacent neighborhoods.

### National Vulcanized Fiber (NVF) Company

Transforming the area in Yorklyn into a residential, commercial, conservation and recreational area while cleaning the site of contaminants, reducing flooding and preserving and restoring historic aspects.

### Fort DuPont

Development as a mixed-use community to include housing, recreation, health care and institutional spaces, fully integrated with Delaware City that will produce revenue and jobs.

## Financial Empowerment through

**10,495** people have raised credit scores by an average of 44.5 points through financial coaching

**7,409** have received assistance obtaining college financial aid
